ANNUAL MEETING RATEPAYERS

The annual meeting of the rate-payers of the Town of Blairmore was held in the Community hall on Friday night last, with one hundred men and women in attendance.

The chair was occupied by Mr. S. G. Bannan, while Mr. C. M. Larbaester, town and school secretary, acted as secretary.

The financial statement was submitted, and upon motion by W. J. Bartlett, was approved.

His Worship Mayor W. Knight occupied a position on the platform, prepared to answer any questions of importance.

Reports from various committees of the council were received, including that of the finance committee by Councillor W. L. Evans, and the relief committee by Councillor Ed. Womersley.

The meeting adjourned, followed by the annual meeting of Blairmore School District No. 628, for which Mr. C. J. Tompkins was called upon and condescended to act as chairman.

Reports from the board appeared quite satisfactory, and very little discussion followed.

According to the report read, the approximate cost of operation of the school for the year 1936 was \$74 per pupil. The principal's report, as well as those of the trustees and inspectors, were briefly discussed.

Meetings adjourned with votes of thanks to S. G. Bannan and C. J. Tompkins, who had so efficiently performed the office of chairman.

MUNICIPAL ELECTIONS TO BE HELD MONDAY NEXT

As a result of nominations on Monday, an election for the offices of mayor, council and school trustees, will be held on Monday next.

Not until the last moment was assurance given that His Worship Mayor William Knight, who has served the town for two full terms, had decided to drop from the ring.

Nominations on Monday resulted as follows:

For mayor—Chrysostom J. Tompkins and Enoch Williams.

For council—Milton H. Congdon, Evan Morgan, Robert Oakes, Albert Olson, Romano Peressini and Louis J. Pozzi.

For school trustees—Alfred Bosetti, William H. Chappell, Martin Krkosky, Edward McDonald, Samuel McDowell and Alex. Rae.

The election on Monday next promises a keen contest.

Born to Mr. and Mrs. J. L. Houbrege at Vancouver on Tuesday, February 2nd, a son.

Auto navigation of the highway between Blairmore and Lethbridge was opened up to auto traffic on Tuesday of this week, after a tie-up of upwards of two weeks. For heavy truck traffic, however, nothing could pass prior to our time of going to press.

As a result of the truck and bus traffic tie-up, the old reliable C.P.R. has been experiencing a very busy time, which is justly coming to them.

INDEPENDENTS' SLATE TO OPPOSE UNION SLATE

Sample ballots have been issued, declaring a complete slate of independents opposing the slate nominated by the local union.

The Union slate is as follows:

For mayor, Enoch Williams.

For council, Evan Morgan, Albert J. Olson and Romano Peressini.

For school trustees, Alfred Bosetti, Martin Krkosky and Alex. Rae.

The independents' slate is:

For mayor, Chrysostom J. Tompkins.

For council, Milton H. Congdon, Robert Oakes and Louis J. Pozzi.

For school trustees, William H. Chappell, Edward McDonald and Samuel McDowell.

The public are reminded that, contrary to statements contained in a mimeograph bulletin, the West Canadian Collieries are in no way connected with or using influence in any way for or against the independents. And, further, not a word is being used offensively in The Enterprise in connection with the election. We trust that a popular vote will return to office men capable of properly administering the affairs of the town and school district.

LATE MRS. FABRO LAID TO REST

The remains of Mrs. Fabro, who passed away rather suddenly at Kimberley the early part of last week, were brought to Blairmore by Friday afternoon's train, accompanied by her three sons, Alphonse, Bruno and Milo, also Mrs. B. Fisher, daughter.

Funeral mass was said at St. Anne's church on Saturday morning, following which the remains were laid to rest in St. Anne's cemetery, beside those of her husband, who predeceased her six years ago.

In addition to relatives mentioned in our last issue, two other daughters survive, Mrs. Rinaldo Pozzi, of Blairmore, and Mrs. T. Macor, in Italy.

ELECTION FOR SCHOOL TRUSTEES AT COLEMAN

Coleman's civic elections on Monday next will be featured by a contest for school trustees. Arthur Reid, chairman; Frank H. Graham and James H. Naylor have been nominated for re-election, after having served two years in office. Opposing them are Nelson Fleming, William Fraser and Pete Sharp.

Three vacancies on the council have been filled by the re-election of Councillors Chapman, Borrowes and Plante by acclamation. All three have just completed a two-year term.

Mayor Pattinson continues in office, having been elected in 1936 for a two-year term.

The town of New Glasgow, Nova Scotia, has decided to have its history printed in book form. A lovely idea that might well be adopted by any town or city in Canada. What about Blairmore? A history of this town, turned out in proper printed form, would be a credit to the town. Blairmore has had a wonderful record—ups and downs.

W. H. Chappell and A. Bosetti journeyed to Edmonton by Monday's train, where they attend the annual meeting of the Alberta Trustees Association, the latter as representative of the Blairmore Board of School Trustees, and chairman; the former as a member of the Alberta executive.

D. G. Mackenzie, K.C., formerly associated with J. E. Gillis, of Blairmore, addressed the Knights of the Round Table at Calgary on Tuesday noon in the big dining saloon of the T. Eaton Company, Limited, his subject being "The Royal and Ancient Game of Golf." Mr. Mackenzie was very well known in Blairmore golf circles.

To the Electors of the Town of Blairmore and the School District:

The Undernamed are being Presented for Your Approval as INDEPENDENT

CANDIDATES at the elections on Monday next:

for Mayor C. J. Tompkins

Resident of the Pass for 28 years, and well known as district representative of Sun Life Assurance Company. He has served on the school board in previous years, and was on the village council of Frank when it was the metropolis of the Pass. He is well qualified to fill the office of Mayor.

FOR COUNCILLORS:

Milton H. Congdon Robert Oakes Louis Pozzi

These candidates are well known and are thoroughly conversant with the requirements of the Town.

FOR SCHOOL BOARD:

William H. Chappell Edward McDonald Samuel McDowell

These men have the experience and the ability to so conduct the affairs of your school as to give the best possible results to your children.

They endorse to the fullest extent the principle of Free School Supplies, Dental Treatment, Nurse's Care; and have an intimate knowledge of what is required to bring the school work up to the standard which the Provincial Education Department demands.

Your Support and Co-operation is Solicited on Behalf of these Candidates.

Blaimore, Alta., Fri., Feb. 5, 1937

PAT LENIHAN, THE
COMMUNIST LEADER

To the Editor of the Advocate:

Dear Sir:—In a rousing speech, Pat Lenihan here at Bellevue, literally shattered public opinion, both in Social Credit and Communist camps, with his plea for immediate unity of both factions, whose very needs are identical. If their needs are identical, why then should the Communist carry on a lone struggle?

Stating that the People's League, a new cloak for finance capital, were out to smash the Aberhart government, the Communists must now, more than ever, rally behind the Social Credit government to protect the interests of the working class, and this was a matter of immediate concern. The People's League, backed by finance capital, was making every effort to utilize the dissatisfaction of the people with the Major budget (where the 2 per cent sales tax, etc., were legislated), as a lever to hoist themselves in the provincial house. He went further on commenting that the People's League, a cloak for finance capital, had nothing to offer to the people outside of concentration camps, wars and cemeteries; that so far the People's League could not be branded as a Fascist institution—a lot of its followers were misled as to the true significance of this political body, so were also the masses in Germany when they voted for Fascist Hitler.

The Aberhart government was a wavering government, sometimes inclined to serve its financial masters, such as was the case with the reactionary Major budget; at other times inclined to serve its public and coming to their help with its interest reduction, and in some cases completely cancelling the interest, such as in the case of farm indebtedness contracted prior to 1934. These last legislations were definitely progressive steps. The Communist party could not have done any better, even if they had been put in power 100 per cent. Would it not be a treacherous policy for the Communist party to look on while the Social Credit government was in critical danger, due to the coming on the scene of the People's League?

The Communist party stood 100 per cent behind the Social Credit masses, who wanted a change for the better, and finance capital is shaking in its boots. Being an elastic body, the Communists must immediately come to reinforce their Social Credit brothers in danger.

Discussing further, whether Social Credit dividends could be paid, Pat Lenihan went a step further in discussing the finances of our province, stating that a sum of 90 million dollars had been made in profits by the big investments during 1936, this after fat salaries had been paid to managers and superintendents. It was our duty to feed the people first, profits secondly. Farmers who produced that wealth were practically starving; miners who slaved in the mines were in the same fix. Naturally we would not be mean enough to distribute the 90 million dollars to those who have created it, but we would use half of it to feed our people, repaying the loan if things picked up.

The Canadian Political Bureau of the Communist party had tabulated that Canada would be in a major war by April of this year, but with the

precipitation of events it may be any day now that the province may be called on to protect with its blood the profits of finance capital, and a province controlled by the Social Credit people and the Communists would have something to say about it. It was because of a complicated international situation, also, that the People's League sprang into action. Finance capital could not afford to have a province in the hands of the people in case of war.

He made a touching appeal to the mothers present at the meeting, who had sons of military age, to rally behind the Aberhart government.

When asked if the Canadian Labor party would also get behind unity, Pat Lenihan stated there was some hope, and there was hope also that the "People's Weekly" would cease its bombarding articles on the Aberhart government. With the Alberta Federation of Labor coming in convention, it is to be hoped that further unity would be hammered down.—J. TANCHE, in Red Deer Advocate.

The SNAPSHOT GUILD
Printing and Enlarging Your Own

Principle of an enlarger: the farther the lens is from the paper the greater the enlargement.

Enlargements bring out interesting detail. Light and shadow tones may be improved in the process.

ALTHOUGH relatively few camera owners develop and print their own negatives, a greater number now do their own printing and enlarging. They find that in this part of picture-making there is a wide range of opportunity to exercise their artistic talents and produce prints suiting their own tastes and fancies.

Developing negatives—what with daylight developing in film tanks and dependable formulae in dark-rooms—has in these days become largely a "time and temperance" process practically certain, if the exposure was correct, to produce good negatives. Printing a negative, developing a print and making an enlargement are very much "something else again," not that they are formidable tasks, but decidedly more choosy. Skill and judgment play a large part.

There is considerable choice, for one thing, in the kind of photographic paper on which the negative may be printed, depending upon the degree of contrast the paper will give to the dark and light portions of the negative, or whether or not soft effects are desired. Some negatives show extreme contrast in lights and shadows; some have average contrast; some, because of faulty exposure, are weak, thin and flat; some, extremely so. The selection of paper best suited to the type of negative and the kind of picture, plus proper exposure in printing, often makes the difference between a good and a bad picture.

Again, there is a choice of surface in paper, such as velvet, glossy, semi-gloss, according to taste. The highly glossy paper, for example, is best suited for a negative filled with detail. Again, re-development solutions are available

"Serve the Church that the Church May Serve You."

CENTRAL UNITED CHURCH
Rev. Albert E. Larko, Minister

Services Sunday next:
11 a.m.—Senior Sunday School and Adult Bible Class.

2 p.m.—Junior Sunday School.

7:20 p.m.—Public Worship.

Wednesday—8 p.m., Prayer Service.

Friday—8 p.m., Group Fellowship.

Following the service of worship at Central United church on Sunday evening next, February 7, there will be a brief congregational meeting to receive the report of the committee appointed to nominate a committee of stewards.

Members and friends of the United churches in the Crows' Nest Pass will keep in mind the visit of the Moderator, the chief executive officer of the United Church of Canada, Rt. Rev. Peter Bryce, D.D., on Sunday, February 14th. A special service will be held at 11 o'clock in Central United church, Blaimore, and the Bellevue choir will assist in the service.

There will be a Baptismal Service in connection with this gathering.

ST. LUKE'S CHURCH NOTES
Rev. A. S. Partington, R.A., Rector

Services Sunday next:
10 a.m.—Sunday School.
7:30 p.m., Evening service.

HARGRAVE ADVISES PREMIER
TO BE MORE CAREFUL

Ottawa, Feb. 3.—John Hargrave, former adviser to the Alberta government, last night took strong issue with a statement last Sunday by Premier Aberhart and cautioned the premier who "will, I think, be wise to be very much more careful as to what he says in his public utterances."

In a statement Mr. Hargrave said: "On Sunday, January 31, Mr. Aberhart was reported to have broadcast the following words from his Calgary Prophetic Bible Institute: 'I was rather pleased to receive a cablegram from the London Social Credit Secretariat advising me to give no heed to Hargrave's declaration of failure, for he could not be depended upon.'"

"Mr. Aberhart has not denied saying this, and it must be plain to everyone that the words 'he could not be depended upon' could mean nothing else than that my character is one that is unreliable."

"That is a very serious charge to make, and therefore I immediately called upon Mr. Aberhart to make public the full text and exact wording of the cablegram to which he referred. He has now done so, and it is revealed that the cablegram from London, England, did not contain any reference whatever to myself as a person who 'could not be depended upon,' nor any words that might convey that impression."

"Mr. Aberhart then made a very lame excuse. He said, 'I was not referring to Hargrave personally.' But of course he was, and there is no way out of it."

"I will leave the people of Alberta to judge what other meaning could be placed upon the words 'for he (Hargrave) could not be depended upon.'"

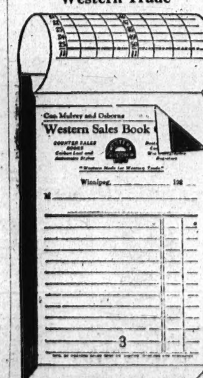

"Mr. Aberhart will be well advised to take much greater care in preparing the script of his broadcasts. It is this sort of thing which undermines all confidence and engenders mistrust in his leadership."

BREAD BAKING MADE EASY

Kneading and Overnight Setting a Thing of the Past

No longer is it necessary to knead the dough or set the sponge overnight when making bread or rolls. Because The Quaker Oats Company have perfected a method that when used with Quaker Flour, eliminates this old fashioned way of baking, thus saving hours and hours of needless labor.

This method is also most economical as it prevents expensive and exasperating baking failures. An illustrated booklet has been prepared.

No More Coughing
or Sleepless Nights

Mr. H. A. Allen, of Garfield, Ontario, writes: "For years I suffered every Fall and Winter with a terrible cough. I have had many sleepless nights and coughed until tears ran, and my stomach ached. I started again with the same old cough about October first—but after a few doses of BUCKLEY'S Mixture my cough was gone. I discovered the fact that BUCKLEY'S Mixture is economical—triple setting—absolutely—prostate air passages—soothe—helps you instantly get rid of germs—helps you—Tut it today at any first-class drug store and find out why BUCKLEY'S outcoughs all other cough and cold remedies in Canada."

COWLEY HAPPENINGS

John Hewitt, of North Fork, has returned from a holiday trip to Lethbridge.

Mrs. Arthur Rodgeth, of Stavelo, returned to her home on Saturday afternoon, following a visit of a few weeks with friends in town.

Mr. and Mrs. Earl Matthews were week end visitors to Lethbridge.

Mrs. Percy Burles is on a visit with her daughter, Mrs. Dogstrom, and family at Lethbridge.

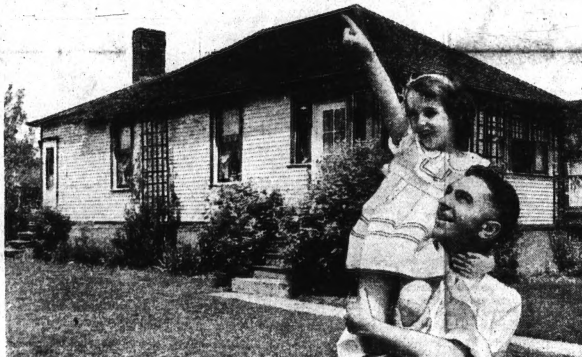

Mr. and Mrs. Wm. Gilmore are on a visit of several weeks to Lethbridge with their daughter, Mrs. W. Willoughby and family.

The municipal office of Livingstone District No. 70, after having been located in Lundbreck for the past twenty years, is being moved to Cowley this week, locating in the old post office building on main street.

The annual meeting of ratepayers of the Village of Cowley was held on Friday evening last, with but a small attendance. On reviewing the records, everything was found to be in satisfactory order, with the financial standing good.

A crew of men that were engaged to clear the huge snow drifts off the main street and sidewalks in Cowley, which had been accumulating for several weeks, did excellent work. Traffic congestion was relieved somewhat on February the 3rd. Drifts were also cut through on the road toward the village school. Owing to drifts being piled so high around most of the town residences, it is almost impossible to deliver coal and other heavy or bulky commodities. On account of the severe weather, the town water supply has been very low, bringing another hardship to be contended with.

SUBSCRIBE TODAY!

"Be It Ever So Humble"

It is to the "humble homes" of Canada that the great majority of Life Insurance payments find their way.

Many such homes today would lack the necessities of life—were it not for the "little savings" which thrifty parents have set aside periodically in Life Insurance.

To the family which loses its breadwinner, Life Insurance means money to buy food and clothing—money to pay the rent—money to pay household bills—money to educate the children. Life Insurance also

means, in many cases, independence of private charity or public relief.

In your own community, as well as in hundreds of cities and towns across Canada, "little savings" in Life Insurance are doing "big jobs". During the past six years, policyholders and beneficiaries in Canada have received, daily, from their Life Insurance Savings, half a million dollars.

"Be it ever so humble"—there's no home which cannot have the much-needed protection of Life Insurance.

Life Insurance

Guardian of Canadian Homes

EDDIE, THE AD MAN

O, SIR, I COULD HARDLY GET BY THE BILLBOARDS JUST NOW, FOR THE BILL POSTERS WERE PASTING UP NEW BILLS, AND A BIG CROWD WAS EAGERLY READING THEM! NOW YOU TELL ME!

THE OATSMOBILE

Oh horse, you are a wonderful brute, No buttons to push, no horns to touch, You start yourself, no clutch to slip, No spark to miss, no gears to stir.

No license buying every year, With plates to screw on front and rear, No gas bills climbing up each day, Stealing the joys of life away.

No speed cops chugging in your rear, Yelling a summons in your ear, Your inner tubes are all O.K. And, thank the Lord, they stay that way.

Your spark plugs never cease to fire, You never get stuck in snow or mire, Your frame is good for many a mile, Your body never changes style.

Your wants are few and easy met—You've something on the auto yet.

BELLEVUE HAPPENINGS

Mr. and Mrs. Raymond Blake are rejoicing upon the arrival of a new daughter.

The whist drive and dance held in the L.O.O.F. hall on Friday evening by the hockey club was fairly well attended. Prizes for whist were won by Miss Ruby Cousins, ladies' first; Mrs. R. Hughes, second; W. Serra, gents' first; Stanley Goodwin, second. After cards a dainty luncheon was served, following which dancing was enjoyed to music supplied by the Altermatt orchestra.

Miss Violet Bradley, nurse-in-training at the Royal Jubilee hospital at Victoria, B.C., arrived on Tuesday afternoon to spend a two weeks vacation with her parents, Mr. and Mrs. H. Kaye.

The eighteen-months-old daughter of Mr. and Mrs. H. Smith, who had been very ill with pneumonia, is improving slightly; we are pleased to state.

The Bellevue high school hockey team defeated the Blainmore High 10 to 5 in a game here on Thursday.

The Bellevue Curling Club was represented by the following at the Fernie bonspiel this week: Gordon Key, I. Haysom, F. Wolstenholme, J. Fisher, J. Curry and Bill Duncan.

Mrs. J. R. McDonald was called to Calgary last Thursday, where her daughter was quite ill.

"Women are as capable as men," said his wife. "Why, I know a girl of twenty-one who gets the salary of the sales manager in a big firm."

"I quite believe you, dear," said he. "When did she marry him?"

Judge: "How do you know you were traveling less than 25 miles an hour?"

Defendant: "I'm positive—I didn't hear a word from the back seat."

ORGANIZE FOR UNITED ACTION

A singular development of the past year has been the nation-wide organization of groups and associations of one form and another with the objective of some common purpose. People are now realizing more than ever before that individual protests are ineffective, individual action limited in scope, and that the only possible protection is in organization and united action.

Taxpayers particularly are active in this direction because legislative trends are toward higher taxes, more government regulation, constant interference with, and penalization of business. Too frequently it is overlooked by those who promote, as well as by those who enact the laws, Courts have held that a tax is not made invalid because it destroys a business. Taxation, it is claimed, is a business risk. Industry and its customers are obviously becoming alarmed that their own representatives in government cannot, or do not, look after their interests—they must do it themselves.

Miss Violet Bradley, nurse-in-training at the Royal Jubilee hospital at Victoria, B.C., arrived on Tuesday afternoon to spend a two weeks vacation with her parents, Mr. and Mrs. H. Kaye.

Mrs. Murphy: "Ten stitches did the doctor have to put in my husband after the fight with your old man last night."

Mrs. Upham: "Ten, was it? Well, when the doctor seen me poor husband carried in, says he: 'Has any one got a sewing machine?'"

To Help You AVOID MANY COLDS

At the first nasal irritation or snuffle, apply Vicks Vapo-Rol—just a few drops up each nostril. Used in time, it helps prevent many colds entirely.

VICKS VAPOROL

Cinderella Resources

The hunt for the hidden wealth which lies at varying depths beneath the soil and rocks of the prairie provinces in the form of gold and silver, petroleum and nickel, copper and zinc in unknown quantities and values is firing the imagination of the people and their respective governments in the west.

There is an allure, a glamour, in the thought that there may be gold "in them thar hills"; in the possibility that beneath the feet of those who tread the soil there may lie great pools of liquid wealth awaiting the drill to gush into a torrent of dollars; in the prospect that a chip of the hammer may unearth a heavy vein of rich silver or reveal the presence of the peacock iridescence of a great deposit of copper.

Moreover, the search for dormant riches of this kind awakens within the human breast the sporting proclivities, the gambling spirit which is inherent in greater or less degree in almost every normal person, though it may not always be recognized or admitted as such. There is disappointment to-day, but tomorrow the searcher will be rewarded. El Dorado may be hidden, but it is at hand.

It is this firm conviction which enables the prospector to carry on his arduous task, through weary years crowded with disappointments and small returns, to exist in poverty and sometimes on the borderland of hunger in lonely wildernesses, to endure the hardships of severe climatic conditions without consenting amenities and sometimes to die without realizing the great dream which haunts his daylight hours and accompanies his slumbers. And in the cities and towns are men in stores and offices, and in the country farmers walking behind the plow who are dreaming the same dreams, the hope of wrestling wealth from the depths, if not by themselves directly, through the agency of those in the front line trenches. They are willing to risk their money, and sometimes more than they can afford, to finance the active searchers, or to buy stock in concerns engaged in that pursuit.

Like the lonely prospector in the field, they, too, are often doomed to disappointment. A few may win great rewards for their patient and reasonable returns, but the odds are against them, for Nature is cunning and capricious. She hides her stores of treasures in unexpected places and guards them with unforeseen obstacles. It is this very capriciousness which gives birth to its great allure and gives birth to the hope which urges the hunter ever onward.

Yet, knowing full well the handicaps against them, people are ever willing to take a chance in the hope of striking something big which will amply recompense them for expenditure of much coin and great energy. It is as well that it is so. For if it were not for this gambling spirit much of the world's treasure now being converted to the use of mankind would never have been discovered.

On the other hand, however, the romance which attaches to the reports of almost daily discoveries of deposits of ore is apt to overshadow other and more stable though less risky potentialities, of which there are evidences on every hand.

Reference is made to the non-metallic resources which, as is well known, are to be found in abundance and great variety in the prairie provinces of Western Canada.

In the three sister provinces are to be found substantial deposits of valuable clays, sodium sulphates, salts, chemical substances, pigments and many other more or less humble and unassuming non-metallic resources which are nevertheless invaluable to mankind when processed. These deposits have been located, their extent determined, many of them are easily accessible to transportation facilities and only await the aid of the scientist and the capitalist to convert them into commodities, marketable not only in the prairie provinces, but in some cases, in other parts of the Dominion and other countries.

Analytical chemists and engineers, who are familiar with, and have done a considerable amount of experimentation with many of these non-metallic resources, are responsible for the statement that if the same amount of energy and money as has been invested in the hunt for the more spectacular metals, had been devoted to the development of these known resources, many flourishing industries might have been started and be well on the way to reaping profitable rewards for their sponsors.

It is admitted that under existing economic conditions it may be difficult to enlist local capital in such enterprises, but in the Old Land capital is available for undertakings of this kind, provided the opportunities are made known.

This suggests that the time may be ripe for the provincial governments to at least inquire into the feasibility of a publicity campaign in Great Britain in an effort to induce local capital to take up enterprises of the nature referred to and put to some real use great assets which to date have either been disregarded or developed to a very small extent.

Aviator Loses Propeller

But Makes Perfect Dead-Stick Landing Without Injury

When the propeller part company with his plane at an altitude of 3,000 feet in the fog, Pilot Alex. Dune, Mackenzie air service, made a perfect dead-stick landing without injury to his passengers or damage to his craft.

Dune was flying through fog in which visibility was almost nil above the snow-covered Athabasca river, delta, when with a sudden jerk the prop came loose.

The plane went into a nose dive and Pilot Dune, not yet aware what had happened, pulled it out and leveled off, then, discovering the prop missing, he coolly and skilfully piloted the machine to a dead-stick landing.

Britain spent \$750,000 in 1936 fighting rust corrosion.

How To Overcome Piles And Rectal Soreness

If you are annoyed with itching piles or rectal soreness, do not neglect the same or run the risk of an operation. Any itching, soreness or painful passage of stool is nature's warning and proper treatment should be secured at once. For this purpose get from any drugstore, a package of **Para-Sani** and use as directed. This formula, which is used internally, quickly relieves itching and soreness and aids in healing the same. **Para-Sani** is a physician's prescription and is highly recommended. It is easy to use and it seems the height of folly for anyone to risk an operation when a simple remedy which is so pleasant to use may be had at such a reasonable cost.

Document Cannot Be Found

Germany's Declaration Of War On France In 1914 Still Lost

A mystery which has defied the best minds in the French Foreign Office has cropped up again in Paris: the disappearance of Germany's official declaration of war on France in 1914.

French Rightists resurrected the puzzle of the missing document, linking it with the arrest of Suzanne Linder, Foreign Office employee charged with forging documents. One newspaper asserted Mme. Linder's arrest brought the disappearance to light but government officials said the historic note had been sought since it was found to be missing from the files in 1928.

Just when because of it after Baron von Schoen, German ambassador to Paris, handed it to Premier Rene Viviani on August 3, 1914, is not known. Presumably it was filed but a committee formed in 1928 to edit documents concerning the origins of the Great War was unable to find it.

The late Raymond Poincaré quoted it in his memoirs. It is believed he worked from the original.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Ready to go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food does not digest. It just stagnates in the bowels. Gas builds up your stomach. You get constipated. Bile poisons go into the body, and you feel sour, sick and the world looks ugly. A more bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those cold, old Carter's Little Liver Pills to get the bile flowing freely and make you feel "up and up." Hardened arteries make the bile flow freely. They do the work of a catalyst but have no catalyst or energy to make the bile flow freely. They are called Carter's Little Liver Pills by name! Stubbornly refuse anything else.

Opposes Isolation Policy

Speaker Says Not Consistent With British Nationality Of Dominion

Failure of members of the League of Nations to back the system of collective security had intensified the imminent danger of war, Professor P. E. Corbett, former dean of the McGill University law school, said in a public address delivered under the auspices of the Dalhousie University Institute of Public Affairs at Halifax.

The desire of several elements in Canada for a foreign policy of neutrality and isolation was condemned by Professor Corbett as the British national policy of the Dominion or with its place in world commerce.

"To cry peace is no foreign policy," he declared and added he considered isolation or neutrality "an impossible and untenable status."

An Important Product

Wood Is Now Being Used In Many New Ways

An article in the Victoria Colonist says so much is heard about substitutes for wood that there is a general belief that the daily use of it is decreasing. This is not the case, says the forestry branch of the Dominion Bureau of Statistics. The proportion of wood used in the modern building has recently reached its minimum and is now tending to increase. More wood is used in the manufacture of automobiles than was ever used in making carriages and wagons. New uses for wood are being developed daily. Artificial silk, linoleum, explosives and many other products, to say nothing of the enormous annual increase in the use of paper made of wood, all tend to make this material more important.

Cannot Be Done

No Oil Concessions In Morocco For Anyone To Acquire

The story out of Paris that Germany is playing for an oil concession in Morocco would explain a great deal, save for two pertinent facts:—Morocco has no oil. 2.—The need of oil is great enough that it imports about \$75,000,000 worth annually.

So the situation is not dissimilar to that of the helpless soul who could not lend her watch because: 1.—The tub was being used to soak clothing. 2.—The tub had a hole in it. 3.—She didn't own a tub.—Detroit News.

Good Chance To Advertise

It was the village concert, and Miss Brown was encored repeatedly for her recitation of "The Village Blacksmith."

On coming behind the stage for the second time she was accosted by a burly, fair-haired man.

"You the man who've been talking about," he said. "Will you tell them when you go back again that I've bicycles to hire as well?"

Storing Gold

United States Government Puts Two Hundred Million In Underground Vault

Here is a riddle. What is it that is so valuable that it no longer has any value for so useful that there are no longer permitted to use it? The answer is easy. It is our stock of monetary gold. The law denies us the right to use this metal as a circulating medium. The Government has undertaken the double precaution of "sterilizing" a certain excess of gold by formal decree, thus making it impossible to employ it in trade or finance or as a base for bank credit. At the same time the Government considers the gold so valuable that it is now in the process of hiding it away in a hole in the ground out in Kentucky.

Something like \$200,000,000 in bullion has already been transferred from the Philadelphia Mint to this underground vault. Eventually more than \$4,000,000,000 in gold bars and coin will be stored away there.—Baltimore Sun.

SELECTED RECIPES

MOLASSES COOKIES
Temperature: 375 degrees F.
Time: 15 minutes.
1/2 cup shortening; 1/2 cup molasses; 1/2 cup corn syrup; 1/2 cup hot water; 2 tablespoons lemon juice; 2 cups Royal Household flour; 2 teaspoons ginger; 1/2 teaspoon baking soda; 1/2 teaspoon salt; 1 teaspoon cinnamon; 1/2 cup brown sugar.
Cream the shortening and add molasses, corn syrup and hot water. Mix until smooth and add lemon juice. Sift together flour, ginger, soda, salt and cinnamon; add sugar. Stir into first mixture. The dough will be very soft, so chill thoroughly. Break off small pieces of the dough and roll into small balls between the floured palms of the hands. Place on greased cookie sheet about one inch apart and flatten with the tines of a fork, first one way and then the other. Bake 15 minutes in a moderate oven.
Recipe by Mildred Mac Mackenzie Copyright.

CHRISTIE'S MAGIC LEMON CREAM PIE

(No cooking required)
1 1/2 cups (1 can) sweetened condensed milk
1/4 cup lemon juice
Grated rind of 1 lemon or 1 teaspoon lemon extract
1/2 cup whipping cream
2 tablespoons finely powdered icing sugar
1/2 pound Christie's vanilla wafers
Blend together sweetened condensed milk, lemon juice and grated lemon rind, stirring until thoroughly blended. (It thickens just as though you were cooking it, to a glorious creamy smoothness.)
Cover bottom of eight-inch pie plate with Christie's vanilla wafers, and cut enough wafers in halves to stand around edge of pie plate, filling in spaces with water crumbs. Fill pie plate with filling, chill thoroughly and cover with whipped cream sweetened to taste with icing sugar.

It is said that one person in every three in the United States resides in a state other than the one in which he was born.

Interchange Of Empire News

General Manager Of Canadian Press Urges Co-Operation In Britain

Prompt consideration of The Canadian Press proposal for co-operative interchange of empire news was urged before the Empire Press Union's annual meeting in London by J. F. B. Livesay, general manager of The Canadian Press.

He recalled that the Canadian section of the union had pressed the scheme at imperial press conferences over the last 10 years and was vitally interested in setting the idea in motion towards its goal. All sections had endorsed the principle, but it had not actively progressed.

"In these discussions it has been said that empire news is not wanted in these islands (the United Kingdom) that it lacks the virtue to make your front pages," Mr. Livesay said. "Here is Canada drifting under the ice of the Monroe doctrine: it is not news. The waters of Australia are dark with the shadow of the Orient colossus: it is not news. In Africa, black is calling to black: it is not news."

Mr. Stanley Reed (Times of India), chairman in the absence of Major J. J. Astor, referred to the council's efforts to achieve cheap empire communications.

"I shall never have been satisfied until we reach an imperial press rate for the best traffic of a penny a word," Mr. Stanley said.

Doctor Has New Idea

Believes Owning A Dog Is Good Cure For Nerves

Newest cure for nerves! "Get a dog!" A Toronto physician prescribes the treatment and his patients say it works.

An out-of-town business woman working under high pressure felt she was near the breaking point, but didn't dare go to her own doctor. She knew the verdict would be, "You'll have to take a rest." Some one recommended the Toronto doctor.

After an examination, he said: "You don't know how to relax, do you?"

"No," she replied after a pause, "I don't believe I do."

"Well, get a dog," he told her.

She did. Now, when she arrives home at night she is greeted by her canine friend, who, with his antics, soon takes her mind off business worries. Before she retires she takes him for a stiff walk. When she gets to bed she sleeps the sleep of the contented mind.

"Soundest medical advice I ever got," she says.

Collects Railroad Lanterns

Connecticut Man Has Two That Were Used In 1860

Collecting railroad lanterns is the unusual hobby of a New Britain (Conn.) man, who has 90, representing 40 railroads from New England to the Middle West. He has found them along railroad tracks, in attics, cellars, antique shops, junk heaps, says the Delaware & Hudson Railroad Bulletin. Two date back to 1860, one used by the Adams Express Company and the other from the New York, Lake Erie & Western Railroad. In addition, he has two brass ship lanterns that were used on Lake Ontario in 1864. They have quartz glass globes and twin-tube oil founts.

Plenty More To See

A traveller was boasting in a public bar of the wonderful things he had seen all over the world. He declared there was nothing he had not seen.

A quiet little man got up from the corner of the bar and said quietly: "Excuse me, sir, but have you ever had D.T.'s?"

"No, of course not," snapped the traveller.

"Then you've seen nothing."

Here's that Fast "Phillips" Way To Alkalize Stomach Quickly

On all sides, people are learning that the way to gain almost incredibly quick relief from stomach conditions arising from overacidity, is to alkalize the stomach quickly with Phillips' Milk of Magnesia.

You take either two teaspoons of the liquid Phillips' after meals; or two Phillips' Milk of Magnesia Tablets. Almost instantly "acid indigestion" goes, gas from hyperacidity, "acid" headaches—from over-indulgence in food or smoking—and nausea are relieved.

Try this Phillips' way if you have any acid stomach upsets. You will be surprised at results. Get either the liquid Phillips' or the remarkable, new Phillips' Milk of Magnesia Tablets. Only 25¢ for a big box of tablets at drug stores.

Phillips' MILK OF MAGNESIA

Luckiest Stone In World

Diamond Credited With Querer Power Bought In England

A 19-carat diamond, valued at \$60,000, which is said to be the luckiest stone in the world, has been purchased by a group in England.

Unlike the famous Hope diamond of Belgium, which is a greenish-blue color, the "lucky" diamond is rosy-pink. It is credited with the power of warding off ill-health.

When Aston Barbara of Paris bought it 160 years ago, he was suffering from an apparently incurable disease. Immediately after it came into his possession his health improved, and during the next 28 years of his life he never had an illness.

Since then it has been handed down from generation to generation, and it has always held the same charm.

A short time ago, the sole survivor of the family sold it.

Using New Equipment

Now Possible To Weigh Objects Without Using Gravity

The old catch question "which is heavier, a pound of feathers or a pound of coal?" qualifies as a puzzle to many people because they have only a hazy conception of the difference between the weight of an object and its mass. New laboratory equipment developed by a Chicago scientific instrument company now makes it possible to weigh an object without using gravity at all, and thus fixes in the student's mind the fundamental difference between the mass of a thing weighs and its mass. Teachers using the device thereby hope to remove the erroneous interchangeable use of the terms weight and mass.—Detroit Saturday Night.

A detailed description of the process that goes into making a newspaper or magazine would require several volumes.

The 500 express bullet, used in elephant hunting, has a striking power of 2 1/2 tons.

JUDGMENT IS HANDLED DOWN BY PRIVY COUNCIL

London.—The judicial committee of the privy council, handing down judgment in six cases arising from the social reform measures passed by the Canadian parliament during the Bennett administration, incorporated in one of its opinions a lengthy analysis of the Dominion's treaty-making powers.

The judgments upheld previous opinions of the supreme court of Canada except in respect to several sections of the Dominion Trade and Industry Commission Act, declared invalid by the Ottawa court and not included in the Dominion attorney-general's cross-appeal, which was allowed by the judicial committee.

Legislation dealing with unemployment insurance, labor, minimum wages and marketing was declared ultra vires, or beyond the authority, of the Dominion parliament.

Measures giving effect to some of the recommendations of the Stevens commission on mass buying were declared constitutional, as was the law providing facilities for the liquidation of the debts of insolvent farmers along bankruptcy lines but without actual recourse to the bankruptcy courts.

These measures were declared valid.

1. Dominion Trade and Industry Commission Act, 1935. This would empower a federal commission to regulate business provincially, inter-provincially and in relation to the Dominion as a whole.

2. Section 495a of the criminal code of Canada. This section sets forth penalties for breach of regulations made by the Dominion trade and industry commission.

3. Farmers' Creditors Arrangement Act, 1934, and amending act of 1935. This provides for bringing together a farmer and his creditors for a settlement of debts along bankruptcy lines without actual recourse to bankruptcy courts.

The following measures were found ultra vires:

1. Employment and Social Insurance Act, 1935. This measure would have created a contributory system of unemployment insurance and set up employment agencies.

2. Weekly Day of Rest in Industrial Undertakings Act, the Minimum Wages Act, and the Limitation of Hours of Work Act, 1935. These seven acts were based on conventions agreed to by the international labor office.

3. Natural Products Marketing Act, 1934, and amending act of 1935. These provided for creation of marketing boards with wide powers for control vested in producers.

In holding the Minimum Wage and Hours of Labor acts ultra vires, their lordships defined for the first time the limitations attaching to the Dominion parliament's power to give effect to international treaties since Canada acquired her present status under the Statute of Westminster. They declared that under the distribution of powers between the Dominion and the provinces in the British North America Act, "there is no such thing as treaty legislation as such."

"The distribution is based on classes of subjects and as a treaty deals with a particular class of subjects so will the legislative power of performing it be ascertained," the judgment said. "No one will doubt that this distribution is one of the most essential conditions, probably the most essential condition, in the interprovincial compact to which the B.N.A. gives effect."

Curtail Flying Operations

Decide To Play Safe In Los Angeles Area In Stormy Weather

Los Angeles.—Curtailed of flying operations in the Los Angeles area during stormy weather was agreed upon by operations superintendents of four major airlines.

Two airliner crashes near here in the past month killed 17 persons. Those companies in the agreement were American Air Lines, United Air Lines, Transcontinental and Western Air, and Western Air Express.

Means Higher Income Tax

Stoke, Staffordshire.—Great Britain had the prophesy of a former chancellor of the exchequer that her rearmament program would cost her another threepence in the pound in income tax. Sir Robert Horne predicted raising of the tax from four shillings and sixpence to five shillings in the pound (25 cents on the dollar) to help finance rearmament.

Government Wheat Board

President of United Grain Growers Recommends Supervision For Grain Exchange

Winnipeg.—Doubtful of practicability of reviving wheat pools on a contract basis, R. S. Law, president of United Grain Growers, Ltd., proposed the Turgenev royal grain commission consider a government wheat board and appointment of a government supervisor for the Winnipeg Grain Exchange.

Confusion in the minds of farmers in western Canada as to the best marketing methods was noted by Mr. Law as he summarized activities of the grain trade. Because many farmers wanted a means of selling their wheat to obtain the average price of the year, the president of the farmer-owned grain company said the commission should investigate whether "it is feasible for the wheat board to supply such farmers with the type of selling they desire." The board would pay an initial price and interim payments later as warranted, through disposal of the wheat.

The commission should also consider advisability of appointment of a supervisor for the Winnipeg Grain Exchange as recommended by the Stamp commission in 1931, Mr. Law said. Such a supervisor would make reports to the government on grain exchange activities and, according to previous evidence, would not be opposed by the grain exchange although W. J. Dowler, president of the exchange, thought a supervisor unnecessary.

Questioned by Hon. J. L. Ralston, K.C., Montreal, commission counsel, Mr. Law said he proposed the supervisor because of rumors of "short selling"—selling of grain by persons not owning any grain. He had no knowledge of any extensive short selling operations, he said. Mr. Law also thought some regulation might be made to prevent foreign hedging on the Winnipeg futures market.

New Alberta Board

Formation Of A New Trade And Commerce Board Is Announced

Edmonton.—Formation of a new trade and commerce advisory board for Alberta, to be composed of 12 members, was announced here by Hon. Dr. W. W. Cross, minister of trade and industry. Pending a meeting of the full committee, H. M. Jenkins, of Calgary, has been named as temporary chairman.

The new commerce board supercedes the retail advisory committee headed by W. D. King, deputy minister of trade and industry. Dr. Cross said that under the new setup, scope of the committee would be enlarged to cover all lines of business and commerce.

Aid From Canada

Canadian Red Cross To Help U.S. Flood Victims

Toronto.—Canadian Red Cross Society has extended full co-operation to the United States body of bringing relief to victims of the flooded areas and all contributions of money, foodstuffs, medical supplies and new clothing will be accepted by the Canadian relief organization and forwarded across the border.

Canadian railways have announced they will carry the foodstuff, clothing and medical supplies free of charge as far as the border, where they will be taken over by American railways, who are rendering the same service.

Admits Story Was Hoax

Edmonton Boy Confesses Report Of Robbery Was Untrue

Edmonton.—Royal Canadian Mounted police announced that Willie Lagdyn, 12-year-old Edmonton newspaper carrier, had admitted his story of being "taken for a ride" by two men, bound and thrown in a snow-drift after being robbed of \$4.80 was a hoax.

The boy confessed his report of a "gangster" type robbery was made because he had lost the money and was afraid to tell his parents, police said.

Aviation Award

New York.—The Harmon trophy, noted aviation award, goes this year to Howard Hughes for his flying feats during 1936. Col. Charles Kerwood announced. Col. Kerwood is president of the American section of the Ligue Internationale des Aviateurs, which made the choice.

Riches Of Antarctic

Portland, Ore.—Rear-Admiral Richard E. Byrd told interviewers here there are 1,000,000 square miles of unexplored Antarctic territory rich in coal and oil. "There is plenty of coal down there to supply the entire world," he said, "and I am sure there is oil under the ice." 2188

Delay Atlantic Air Service

British Aircraft Manufacturers Too Busy With Armaments

London.—The heavy burden placed on British aircraft manufacturers by the government's rearmament program will make it impossible to start the projected north Atlantic air service until 1939 at the earliest, the Daily Herald's aviation writer said.

"Aircraft builders are completely engaged with Royal Air Force work and cannot apply themselves to the design and construction of 50-ton Atlantic flying boats," he wrote.

"The 50-ton boat designed by the Short brothers and carrying probably 30 passengers (the 600 (about \$300) a head and a heavy load of mail would be able to cover operating costs. Unfortunately there is no firm in England able to produce these machines in less than 18 months."

LOSSES CAUSED BY WORST FLOOD IN HISTORY OF U. S.

The dead in the mightiest flood in United States history reached high into the tragic hundreds and the army, bolstering the levee defenses of the Mississippi river, prepared—should the worst come—to evacuate the endangered along its 1,000-mile course.

In the Ohio valley, where so many died—particularly at hard-hit Louisville, which could only guess at the number of its fatalities—the worst appeared over at most points.

Louisville, Cincinnati and scores of other major cities, however, suffered cold, water shortage and disease. Influenza of epidemic proportions was reported at Paducah, Kentucky.

At Louisville alone official statistics combined with authoritative estimates put the dead from the flood, directly or in its effects, at from 200 to 400. Horace A. Taylor, vice-mayor and president of the board of aldermen, broadcasting for Mayor Neville Miller, said he believed the total number of deaths in Louisville from flood causes would not exceed 200.

Fearful of what might happen along the lower Mississippi as the Ohio's great rolled southward, Major-General Malin Craig, the army's chief of staff, had ready a military organization capable, if need arose, of evacuating 500,000 people from Cairo, Ill., to the Gulf of Mexico.

The army's precautionary plan for transferring the possibly endangered thousands who live along the 1,000 miles of the Mississippi river's banks—ordered with the official explanation it might not become necessary—would bring into action as many as 35,000 motor trucks and rows upon rows of railroad flat cars.

Homeless—estimated at almost 1,000,000 by the Red Cross. Dead—known dead numbered 261—including 133 known dead in Louisville. However, it was reliably estimated more than 300 had died from exposure and disease in Louisville hospitals. This would boost the general flood total to more than 428.

Known dead by states included: Kentucky, 170; Arkansas, 23; Missouri, 14; Ohio, 14; West Virginia, 11; Indiana, nine; Tennessee, nine; Illinois, six; Pennsylvania, three; South Carolina, one; Mississippi, one.

Damage—conservatively estimated at more than \$400,000,000. Relief—Red Cross raising \$10,000,000 relief fund. Senate arranged for quick consideration of \$790,000,000 deficiency appropriation.

WHERE FLOODS TOOK HEAVY TOLL

Residents of Cincinnati found the problem of obtaining supplies a difficult one when flood waters marooned many families, necessitating delivery of food in boats.

SIR IAN FRASER

Famous blind British M.P., whose appointment as a Governor of the British Broadcasting Corporation has caused a vacancy in the House of Commons. The by-election will be a straight fight between Conservative and Labor candidates.

Unaware Of Trade Plan

Canada Not Bartering With Germany States Minister Of Labor

Ottawa.—So far as the department of trade and commerce is aware no particular plan has been devised whereby Germany may obtain Canadian wheat in exchange for manufactured goods.

This was the reply of Hon. Norman Rogers, minister of labor, to a question raised by M. J. Coldwell (C.C.F., Rosemount-Biggart).

As acting minister of trade and commerce, Mr. Rogers reminded the questioner the recent agreement with Germany provided that the German government would make available for the purchase of goods in Canada the proceeds from sale of goods imported from Germany. Of that total 35 per cent would be allocated to the purchase of Canadian wheat.

For the first six months it was agreed Germany could buy wheat on a basis of "compensation trading" but there was no particular provision, otherwise for a system of bartering manufactured goods for grain.

The Modern Newspaper

Readers Wider Service Than In The Old Days, Says Hector Charlesworth

Kitchener, Ont.—"I am not saying the modern newspaper is better written, but it renders a wider service than the newspapers in the old days," Hector Charlesworth, Toronto journalist and former chairman of the Canadian Radio Commission, told Waterloo county Canadian Club members here when he spoke on "Newspaperdom, Past and Present."

"I still think the editor's voice counts—perhaps for more in a day when people are thinking more," he said. "The modern newspaper is a thing of special features that were not considered worthy of a newspaper by the editor of the old days."

"Though it is of necessity highly capitalized that does not mean the modern newspaper is capitalistic. It cannot be, because in its service it cannot afford to violate the convictions of its readers otherwise it would lose business."

Drive Against Air Rifles

Toronto.—After several recent accidents, one in which a Toronto man lost the sight of an eye, a move is on foot in Ontario to ban the sale of air rifles. Deputy Police Chief George Guthrie recommends government regulation, declaring police were powerless to cope with the situation when a child of 12 or 13 might buy one.

Railway Awarded Damages

Court Ruled Truck Driver Was Responsible For Accident

London, Ont.—Justice Nicol Jeffrey in winter assizes court awarded Canadian National Railways \$1,000 for damages suffered when a train struck a truckload of celery at the Hyde Park crossing here in October, 1935. The court dismissed a counterclaim filed by E. V. Breckon, Aldershot, owner of the truck. The court found the driver of the truck, Robert Henderson, was responsible for the accident and condemned the truck owner to pay the cost of damage to the train and the cost of substituting another engine.

Safe Driving

Lethbridge Boats Of No Fatal Automobile Accidents In Two Years

Lethbridge, Alta.—The boast of Galt, Ont., a city of 14,000, that not one fatal motor accident occurred within its boundaries during 1936 left the Lethbridge city police department cold.

Lethbridge has a better record than that, they said. Not one automobile fatality occurred here in 1936 nor in 1935.

In 1936 only one coroner's inquest was held in connection with any death in Lethbridge, a city of approximately 14,000 population.

Plans For Christening

Name For Royal Princess Has Not Been Announced

London.—The infant princess born to the Duchess of Kent Christmas day will be christened the afternoon of February 9 in a private ceremony at Buckingham Palace chapel, it was announced officially.

The name to be given the child, sixth in line of succession to the throne, has not been announced. She will be baptized with water from the River Jordan.

BRITAIN PLANNING 100 SQUADRONS FOR AIR FORCE

London.—A prediction 100 squadrons of the Royal Air Force would be formed by the end of March was made in the House of Commons by Sir Thomas Inskip, minister for defence co-ordinator.

Sir Thomas replied for the government to a motion by Oliver Simmonds, Conservative, which stressed defence against air attack was inadequate and urged accelerated production of equipment. A private member's motion, it was talked out without a vote.

Eighty-seven squadrons had been formed up to the present, Sir Thomas said. Of these 13 were on a one-flight basis and it was anticipated that by March 31, 22 would be on a one-flight basis. That is to say they will be developed into fully-equipped and manned squadrons.

"If our expectations are fulfilled the remaining 24 squadrons of the government's present program—at any rate 20 will be completed by July of this year," he said.

A squadron is made up of 12 aircraft with a personnel of approximately 20 aviators.

The government's program was to increase the first line strength of the air force to approximately 1,750 aircraft, not including the navy's arm, but including the auxiliary air force which is to be increased by four squadrons.

Sir Thomas explained delay in execution of the program had been caused by three factors: Aerodynamic technique was changing swiftly and it was difficult to obtain draftsmen, machines and tools;

It was necessary to send 12 squadrons to the middle east, the Mediterranean and Aden;

The ambitious nature of the expansion scheme.

The government had considered buying foreign machines, he said, but they believed aircraft could be obtained equitably soon by using Britain's own resources.

"Shadow factories will commence production in so far as air frames are concerned, in the Austin factory in the autumn of this year, and in so far as engines are concerned production will begin in January of next year," Sir Thomas added.

F. Montague, Labor, said that if Simmonds was right in regard to the United Kingdom's position in the air war the government quit an made room for a new government. He thought an estimate by Simmonds that Germany must have something like 15,000 planes was "very extravagant."

DEBTS MOUNTING AT FASTER RATE THAN REVENUES

Ottawa.—Provincial debts have been increasing at a greater rate than revenues between 1925 and 1935, according to a compilation made public by the Bank of Canada. This was the first of a series of monthly statistical summaries which the bank plans to issue.

The summary gives a number of the essential features of Canadian economy, including comparative figures for several years. Graphs show the trend, for example, of the liabilities and assets of the Bank of Canada, both of which have risen almost steadily since the bank started business in 1935.

Many of the tables present statistics already partially available in other forms from the bureau of statistics. One feature is a series of tables giving the provincial indebtedness.

In 1925 the total indebtedness of the provinces, exclusive of the amount they had deposited in sinking funds was \$813,400,000. Ten years later, in 1935, it was \$1,622,000,000. The increase was 99 per cent.

Debts have been increasing faster than revenues. In 1926 the debt was 963 per cent of the annual revenue of the provinces. In 1935 it was 777 per cent.

The public debts of the provinces in 1935, less the sinking funds with the relation of the debt to the annual income that is in brackets follow: Prince Edward Island \$5,200,000 (.381 per cent); Nova Scotia \$81,000,000 (.815); New Brunswick \$64,900,000 (.901); Quebec \$163,000,000 (.465); Ontario \$885,500,000 (.852); Manitoba \$111,000,000 (.761); Saskatchewan \$183,400,000 (1.105); Alberta \$165,600,000 (.864); British Columbia \$158,200,000 (.588).

For Increased Defences

Canadian Legion Endorses Proposals For Better Defences For Canada

Ottawa.—Government proposals to increase Canada's defences by sea, land and air were endorsed in a resolution passed by the Dominion executive council of the Canadian Legion at its meeting here.

The resolution expressed hope defences may be developed to meet the Dominion immune from attack and to preserve her position as an independent nation "which does not seek to interfere with the rights of any other nation but only to develop its national life in a world where peace should prevail."

A committee from the executive council conferred with the government to urge "relief be immediately granted all unemployed ex-service men, the minimum basis of such relief be not less than that recommended by the Hyndman commission."

It was also advocated by the committee the government introduce legislation based on the interim and final report of the Rattray commission, such legislation to provide that in the event of a final report not being received before parliament prorogues, effect be given to its recommendations by order-in-council.

The Rattray commission was appointed last year to report on the rehabilitation of unemployed war veterans.

The government has reached no decision yet concerning the representation made by the committee.

Orders For Armaments

London.—Alfred Duff Cooper, secretary for war, in a written reply to a parliamentary question, stated orders had been placed by his department of an approximate value of £34,000,000 (\$170,000,000) between April 1 and Dec. 31, 1931. Orders representing £6,500,000 (\$32,500,000) were placed in the depressed areas during the period, he depressed.

Editorial Member Dead

Toronto.—Alex F. Bell, member of the editorial staff of the Canadian Press, is dead after an illness of almost a year. He was 39 years old and one of the few Morse operators who made themselves into newspapermen when the teleprinter displaced the telegraph key in newspaper offices eight years ago.

Plane Crash Kills Twelve

Brussels, Belgium.—Twelve persons were killed when a Belgian mail plane crashed into the Oran, Algeria. Eight passengers and four members of the crew perished when the pilot apparently attempted to land at Oran on a regular return trip from the Belgian Congo, in central Africa.

Polling Monday will take place in the Columbus hall.

It's really a thin skin that cannot stand a little of caricature and cartoons.

An explosion in the boiler rooms of the C.P.R. shops at Field, B.C., did damage estimated at \$100,000.

The Cowley light house reports seeing several ships pass that way during Tuesday night's storm.

The Queen Mary, new British liner, is really two ships, one within the other, with a space of six feet between the outer and inner hulls.

Again on Sunday, February the 14th, the text at the Prophetic Bible Institute will be "The Calgary Herald."

A good many local hearts are going pit-a-pat these days as their oil shares keep hopping about. It once happened before, in 1914.—High River Times.

About half the population of Blairmore on Sunday afternoon joined in the chorus: "Sweepin' tru de gates ob de new Yarusalem." Music for the singing was provided by the Bible Institute.

One half the world makes a pretty fair living working the other half.

The town of Bassano reports a balance of assets over liabilities of \$149,563.

Quite a number of curlers from this district took part in the big bonspiel at Fernie this week.

F. O. McKenna, prominent Pincher Creek solicitor, was a visitor to The Pass on Tuesday.

Auditor E. D. Battrum's annual report of the financial position of the town of Coleman appeared in very neat form in The Coleman Journal.

The Calgary Radios hockey team arrived in Blairmore by Wednesday night's train, to play two games on Coleman ice.

C. B. Anderson, district traveller for Western Canada Wholesale Co., Fernie, was on the sick list this week. His territory was covered by Mr. Wallace, of the company's office staff.

Did ya notice that, referring to Mr. Aberhart's broadcast on Sunday afternoon last, nothing was said as to just what that hide of his could stand in the way of real "labor" punishment?

Local and General Items

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, etc. Phone items in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

An exchange remarks: Time alone will tell whether it was Aberhart or Hargrave that was "taken for a ride."

The financial statement of the town of Blairmore showed a very encouraging condition.

Mrs. Julia LeGrandeur, an old-timer of the district, passed away in hospital at Pincher Creek on Wednesday.

Alberta has pee-wee tennis, pee-wee golf, pee-wee baseball, pee-wee hockey, pee-wee basketball, pee-wee hounds and a pee-wee government.

The British nation has no desire to spend money upon armaments, yet it can show as stubborn determination as any other nation in re-equipment.—Anthony Eden, Britain's foreign secretary.

Rev. N. D. Kennedy, M.A., M.C., in an address at a Burns' anniversary banquet at New Glasgow, N.S., stated that "If Burns were alive today he would denounce the false philosophy of our age as he did that of his own."

We understand that Alberta newspapers have decided to bill Mr. Aberhart for every inch of space used boosting his government during the past nineteen months. Double price is to be charged for cartoons.

Famous Last Words: "Is it true that in order to get a provincial government job one has to show his Social Credit membership card?" Every day in every way the old line parties are being shown that they get to wake up.—Drumheller Review.

Harold Vroom, of Beaver Mines, in Calgary, having treatment for his leg which was broken when he was forest fire fighting last summer. Although it was set at the time, the compound fracture still causes him trouble.

A very successful sale has been in progress in the G. E. Cruickshank store at Hillcrest for the past two weeks. The sale has been well patronized, but unfortunately stormy weather prevented people from neighboring towns and the foothills from attending.

The Oxford hotel has come to the front very generously for the coming bonspiel at High River. Mike Moxin has donated a special prize, for which only visiting rinks are eligible. This will be given to the outside rink winning the greatest number of games, and will consist of four handsome bed robes.

The Canadian National liner Prince David, well known at Vancouver, has been chartered by the National Tours of New York for a series of cruises from New York to South America and the West Indies. She will sail February 6 and 20, March 6 and 20 and April 3 and 17 to the Panama Canal, Havana, Kingston, Rio Magdalena and Barranquilla. A cruise will occupy thirteen days.

A real epidemic of evacuations, resignations, and what nots, at Edmonton, have added considerably to the "denial" programme of the Aberhart government. Even Mr. Aberhart, our premier, has had to retract certain statements made regarding Hargrave, a man who was kind enough to offer services to a government gratis. And Mr. Aberhart never told a lie! You! you!!

As often happens when a woman is approaching forty, Miss A. was 'about twenty-eight' and not without hope. Even her favorite fortune-teller could not see a sweetheart in the offing, but it was desirable to keep a customer.

"Ha," said she, her eyes on the crystal; "I see a tall man. He's going to propose to you."

"Dark," fluttered the excited client.

"Yes," said the fortune-teller, "dark. It will have to be."

A few more resignations and there will be no one to tell the tale at Edmonton but Mr. Aberhart himself.

There is something radically wrong when a man will throw down a \$7,000 annual income nowadays.

As for Mr. Aberhart, it's just too bad that that "thick" skin he boasts so much about through the "mike" is so terribly tender!

A pamphlet, entitled Election News, has been issued from the office of Pat Lenihan, Communist organizer, supporting the Union slate.

A regular meeting of Crows' Nest Chapter of the I.O.D.E. will be held in the Anglican Hall on Tuesday, next, February 9th, at 7.30 p.m. Business, election of officers.

The body of Dr. J. C. B. Davis, 67, kidnapped about a week previous, was found near Willow Springs, Mo. The body had been riddled with bullets. A youth of 20 years has confessed the slaying.

A C.P.R. repair gang have been located here for the past week, effecting repairs to the station platform. We understand it is the company's intention to extend the platform eastward some seventy-five feet or so.

Horace William Adams, Jack Fraser and James Williams have been arrested at Lethbridge, found to be in possession of a quantity of furs stolen recently from the store of M. Fefferman.

About twenty-five members of the Elks' Lodge and their friends at Brooks entertained at the new game "Monopoly." The game continued until a winner was declared at each table. Luncheon was served during the afternoon of the second day.

A well known miner went into a certain store in one of the adjacent districts, and when the merchant advised him that the mice were falling to fall for his cheese bait, the miner with a twinkle in his eye remarked: "Promise him \$25 a month."

It looks bad: A campaign is being waged right now throughout the province in the interest of advance subscriptions to the Social Credit organ, The Albertan. Several canvassers were in this district during the past two weeks, and as far as we could learn had very little success.

Bills issued from the office of The Enterprise announce an "election dance" to be held in the Community hall, Blairmore, on the night of Monday, February the 8th, under auspices of the United Front of Blairmore. Dance at 9 p.m. Bills do not state whether this is to be a "Victory" dance or a "Defeat" celebration.

Lumberjacks working in the vicinity of upper Daisy Creek, report that fish are suffering so much from the cold weather that they are actually leaving the stream and walking out over the snow. The suggestion has been made that the Mounties should visit that region and get fingerprints from the fish.

Mr. Edmonds, assistant to the local government liquor vendor, accompanied by W. Duncan, a brother-in-law, left by Thursday afternoon's train for England, where they are to take over a legacy left by a wealthy relative. Mr. Edmonds is succeeded at the vendor store by Mr. H. J. Clark, of Edson, Alberta.

Premier Aberhart complains of the obstacles which have been placed in his way. But were they not already in the way which he chose? Many men have spent time and money in attempts to discover perpetual motion, but they have never been able to entirely overcome the natural obstacles of friction and the power of gravity.—Nanton News.
